

The Detroit People Mover is a great way to see and visit all of the exciting places to go in downtown Detroit. It's fun, too, because there is a lot to see through the windows!

Safety is very important to us here at the People Mover. When you get on board, be sure to save the seats near the door for senior citizens and disabled passengers, because it is easier for them to enjoy the ride as well. Don't forget to stand away from the doors, so others may enter and exit easily. Listen and you'll hear the announcement for your station.
